About the Conference

The International Conference on Sustainability Initiatives (ICSI) in conjunction with 8th ASEAN Environmental Engineering Conference (AEEC) supported by ASEAN University Network/Southeast Asia Engineering Education Development Network (AUN/SEED-Net); focuses on the themes of science and technology, education and policy on achieving sustainability. ICSI covers topics such as renewable energy, solid and waste water management, green design and technology, sustainability in education, green business and innovation, sustainable consumption and production. This conference will provide a platform for dissemination of multidisciplinary research and case studies, aiming to identify pathways towards a sustainable society.

In line with enhancing the impact and maximizing the reach of the AUN/SEED-Network, ICSI 2015 is expected to engage and foster interaction with external participants, including representatives from the government, industry, community, and other professional organizations in the ASEAN Region and Japan to share their latest research towards exploring collaboration and cooperation in addressing regional and global issues.

ICSI 2015 will be held in Kuala Lumpur, Malaysia. The conference features renowned, international keynote speakers from academia, industry and government bodies.
