On the first day of the new life in MJIIT, University Teknologi Malaysia
Associate Professor Koji IWAMOTO

Today I become a member of MJIIT and new life starts in Malaysia, I arrived Kuala Lumpur International Airport on 30th August. It was the Malaysian Independence Day Eve.

The day and next day, I saw many people were carrying the national flag and walking to celebrate the 57th of anniversary. I could feel their big power and emotion to construct further develop Malaysia together. With watching them, I felt strongly that I would also like to do my best to contribute it and make friendship between Japan and Malaysia through activities in MJIIT collaborating with other staffs in MJIIT.
