

University of Tsukuba Malaysia Kuala Lumpur Office
From Aeyshah Bt Abang Kassim

Joint Supervision

Aeyshah Abang Kassim, MJIIT (9 January – 18 July, 2015)

Attachment Programme

I am grateful to Allah for giving me this opportunity and chances to come to Japan, the place where I dream for since my childhood. I am very thankful to Malaysia-Japan International Institute of Technology (MJIIT) which has approved my application to do an attachment programme and not to forget, my financial support, JASSO. Fortunately, I came here together with my two good friends, Yus Amira and Nur Tasbiyah. First, when we arrived at Narita Airport, a beautiful lady of mixed Japanese and France parentage, Miss Hirumi awaits us. She is very kind in guiding us to purchase the bus tickets to Tsukuba Centre. It was winter here and January and February are the coldest. At first my friends and I are not mentally prepared for this, but now we already adapted to the new environment and changes in our lives.

RIGHT: Malaysia day event on 15th January 2015

We finally reached Tsukuba Centre after two hours trip. Miss Yabe, one of Tsukuba University staff awaits and took us to Tsukuba University by taxi since we brought many luggage. Surprisingly, upon reaching the dormitory, Ichinoya residence hall, three tutors, Hashimoto, Oyama and Takashi Seiya were waiting for us. We were quite touched to see how Tsukuba University treated and provide us with very good hospitality since we arrived. We will be attached in Department of Life and Environmental Sciences under Assoc. Prof. Motoo Utsumi supervision for 6 months from 9 January until 18 July 2015. It is now our 3rd semester and we will try our best to finish up our experiment here. We also met Farhana, Syahirah, Attiqoh and Ezzah, our colleagues from MJIIT which have been attached here, earlier. On 15th January, Prof. Shiraiwa, the department Provost held the first “Malaysia Day” event. I feel very thankful and glad in meeting with other Malaysian here.
