Tsukuba Festival 2015 (Nurtasbiyah Yusof, January – June, 2015)

Tsukuba Festival was held on 9 and 10 of May 2015 at Tsukuba Center Square, and Oshimizu Park. This event consists of various scientific hands-on events, local and international cultural show and food stalls which was very fun, enjoyable and very happening. During these 2 days event, University of Tsukuba foreign students participated and introduced their traditional folklore dance and traditional games of home countries at the theme event of 'Enjoy the World'.

My friends and I went to the festival to see and to 'feel' the science and international city of Tsukuba. This festival was so very happening and people from different country and culture came here to celebrate. I really enjoyed watching the performances from different country with their unique culture. There were performances from Brazil, Indonesia, Japan, India and other countries. It turns out to be a very good and fun experience for me.
