

UT Alumni Visit Kuala Lumpur Office

29 July – Dr. Mohd Afendi Rojan, senior lecturer in University Malaysia Perlis (UniMAP), visited UT Kuala Lumpur Office. He met with Associate Professor Dr. Koji Iwamoto, as the key person to discuss possible activity for all UT Malaysian alumni in future. Later they were joined by fellow alumni member Dr. Muhamad Askari.

Dr. Rojan's research interest is Strength of Materials, Fracture Mechanics, Adhesive Joint and FE Method. He is a true 'Tsukuban' since he did his degree, continue his master and pursue his doctorate in Mechanics and Energy all in the University of Tsukuba.
