Friday 14, 2014 – Prof. Norio Sugiura (Dr.), Director of University of Tsukuba Kuala Lumpur Satellite Office had a short meeting with Associate Prof. Ir. Dr. Mohd. Fadhil Md. Din of Department of Environmental Engineering, Faculty of Civil Engineering UTM Johor. They were joined by Prof. Masafumi Goto (Dr.) from MJIT, Department of Environmental Engineering and Green Technology (EGT) and Associate Prof. Dr. Shreeshivadasan Chelliapan, Academic Manager (Corporate Relations) at School of Graduate Studies, UTM Kuala Lumpur. The meeting discussed constructing research collaboration in algae energy project between University of Tsukuba, UTM and MJIT. During the meeting they also discussed and determined about further researcher and student exchange between both universities with triangle method in the future. Dr. Fadhil is a member of Institute of Environmental and Water Resources Management (IPASA), Water Research Alliance, UTM Johor.
