Prof. Sugiura with Dr. Degawa and the students.

Under the pilot Trans-ASEAN Global Mobility Education (TAG) programme, Assistant Professor Yousuke Degawa with one postgrad student and six undergrad students of University of Tsukuba cordially visited Malaysia. They pay a courtesy call to Prof. Norio Sugiura, MJIT Professor and Director to University of Tsukuba Kuala Lumpur Satellite Office. Prof. Sugiura gave them a brief introduction on MJIT. They were also introduced to Prof. Takashi Yamamoto (Dr.), MJIT Deputy Dean (Liaison & Internationalization) and Prof. Masafumi Goto (Dr.) MJIT Professor in Department of Environmental Engineering and Green Technology (EGT). Dr. Degawa is an assistant professor of Sugadaira Montane Research Centre with mycology as covering field of research. He is very dedicated to the study of life and behavior of fungi. Due to his nature of expertise they will also visited the Botanical Garden of University of Malaya (UM) in Kuala Lumpur before heading to University of Science Malaysia (USM) in Penang. The main purpose of this travel is to give a chance of experiences in Malaysia to the students beside preparation of MoU between University of Tsukuba and USM Penang.
